

TestoView **318**

new!

## TestoView visual inspection tool

This powerful new fiber optic scope has been re-designed for easier examination of areas normally hidden from sight. It is ideal for internal inspection of furnaces, ducts, A/C systems, interior structures, between walls and many other HVAC and industrial applications.

**Inspect, investigate & diagnose**

## TestoView 318 features:

- Comfortable grip handle for long term inspections
- Convenient on/off light switch
- Easily adjustable eyepiece
- Available in 18", 24", 36", 48" 72" and 96" lengths plus thin versions (1/4 in. diam.)
- Lengths up to 40 feet are available by custom order
- Spring-lock shaft, really stays put
- Superior optics
- 25-hour battery life
- Bright, white lighting (high/low beam)
- LED light source never needs replacement

Length:

- 18", 24", 36",  
48", 72", 96"

**Quick Detection  
Of Damaged Parts  
Without Need For  
Dismantling**
